VPN Access

Graduate Institute students may access Library and University of Geneva e-resources from their own laptop by asking for VPN (Virtual Private Network) access.

What you need to do:
- read UNIGE instructions;
- click on outil de distribution de logiciels de l'UNIGE des étudiants;
- indicate your ISIS login received from the University of Geneva (...@etu.unige.ch + password);
- select "Cisco system VPN Client" in the programmes list, download the version corresponding to your computer and install it;
- start the programme in order to consult e-resources (screencast).
